

STATE OF ILLINOIS  
ENVIRONMENTAL PROTECTION AGENCY

INTER-OFFICE CORRESPONDENCE

DATE: September 25, 1972  
MEMO TO: C. E. Clark - D.L.P.C.  
FROM: M. W. Rapps, E.P.E. I  
SUBJECT: East St. Louis/Milam

On the above date, a phone call was placed to Mr. George Brown, Pollution Control officer for Mallinckrodt Chemical Works of St. Louis, Missouri. Mr. Brown stated that some drums containing liquid chemical waste had been hauled to the East St. Louis site but that the practice was discontinued when his firm learned of the site's permit limitations. He further stated that approximately twelve drums containing a small amount of radioactive material (Thorium) were hauled to the site by error and have since been gathered and taken to an approved site.

If any questions arise, the firms address is as follows:

Mallinckrodt Chemical Works  
Second and Mallnort  
St. Louis, Missouri
